

INSTAMAT

Accessories radiators

The design radiator is a stylish and timeless centerpiece in the interior. By using accessories, the radiator becomes even more functional. Accessories can be used to attach towels or bathrobes to the radiator, ensuring that delightful dry and heated towels are readily available after each shower. Instamat has developed a special line of accessories for various design radiators, including towel racks and knobs. Additionally, for some models, a shelf or mirror is also available. The compatibility of accessories with specific design radiators is indicated. Please feel free to contact us if you have any questions regarding the accessories.
